ECP TracerSM Asset Management:

ECP Tracer helps you track your high-value assets and maximize their utilization to save you time and money immediately.

Do you find yourself searching for that 3-phase relay test set, power factor unit, VLF or power analyzer...? Why are you renting another unit when you're sure you already own five?

ECP Tracer makes your operation run smoother:

- Save on leases that were never needed
- Cut insurance costs and shipping costs
- Eliminate wasted time spent locating assets
- Recover lost revenue from idle equipment
- Avoid purchasing more equipment than needed
- Recover lost or stolen assets

ECP Tracer keeps assets organized with optimum utilization to help your company grow and increase profitability.

Our consultants go above and beyond to understand your business goals and provide you with a total solution to get you ahead of your competition.

ECP is standing by 24/7 for any of your electrical supply needs.
